EXPERIENCE. EXPERTISE. DELIVERY.

Mohsen Bakhtiyariha

Full-Stack .NET Developer

PROFILE

Full-stack .NET developer with 13 years of experience building internal business software and custom products across web, desktop, and mobile. My work includes information systems, specialized calculations, backup automation, and map interfaces. Since 2022, I have worked independently for external clients and am open to employment and project-based collaborations.

EXPERIENCE

Independent Software Developer

2022–Present

Designing and developing custom web, desktop, and mobile software for external clients.

Software Development | Confidential Organization

2013–2022

Developing internal software for specialized organizational needs. The organization name and confidential project details are not disclosed.

EDUCATION

Master's Degree | MBA in Information Technology

2016–2018

Payame Noor University, Karaj Center; GPA: 18/20.

Available for employment and project collaboration
